

# EVOKE

## CUSTOMIZABLE HANDS-FREE FACIAL REMODELING

Turn back the hands of time and reveal a younger looking you without needles, invasive surgery, scars, or downtime.

*Evoke is an industry first, targeting facial fine lines and wrinkles. The result is a more refined youthful looking face and jawline.*

### WHAT IS EVOKE?

Evoke is an innovative non-invasive solution designed specifically to target facial wrinkles and fine lines. It is a quick and easy non-surgical alternative to remodel your face, neck, and jawline.

Treatments are customized and tailored to address your specific needs so the end result is a natural younger looking appearance without downtime.

### HOW DOES EVOKE WORK?

Evoke leverages clinically proven radiofrequency technology to deliver volumetric heating to the skin's subdermal layers. By directly addressing facial fine lines and wrinkles, Evoke can help you achieve more defined facial characteristics.

Evoke was created and based on the development and clinical success of the proprietary A.C.E. (Acquire, Control and Extend) technology. A.C.E. technology targets deep within the skin to ensure that no areas are under, or over-treated, thereby maximizing results and providing consistent outcomes.

### HOW SAFE IS THE TREATMENT?

Evoke is recommended for patients who are seeking non-invasive facial remodeling treatments. Evoke improves the appearance of wrinkles and will provide a natural looking younger facial appearance. It is a very safe and effective procedure that can be used on all skin types and skin tones.

Evoke is designed with a Patient Call Button so you can easily pause your treatment at any time and have clinic staff make adjustments to ensure your comfort.

### DOES THE EVOKE TREATMENT HURT?

Evoke treatments are very comfortable. During your treatment you can expect a warming of your skin similar to a warm facial. It is a quick and painless treatment that can be done over lunch time. You will be able to sit up right and can surf the internet, read a book, or watch TV, while treatments to restore youth are being performed.

### HOW MANY SESSIONS ARE RECOMMENDED?

Your practitioner will recommend the optimal number of sessions to be performed based on your personal objectives. Treatment times and frequency will be specifically tailored to obtain the optimal results. You will begin to see gradual improvements in the treatment area following your first few sessions.

### WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

There is absolutely no recovery period or downtime associated with Evoke. It is a quick and painless treatment that can be done over your lunch time, allowing you to return to your normal activities immediately.
